EDUCATION

Boston University   Boston, MA
Bachelor of Arts in Computer Science, Minor in Graphic Design   *Aug. 2020 – May 2024*

Keystone Academy   Beijing, China
The International Baccalaureate Diploma Programme (Highschool)   *Aug. 2018 – May 2020*

EXPERIENCES

Course Grader   September 2022 – December 2022
Boston University   *Boston, MA*

- Course grader for Boston University Computer Science class 320: Concepts of Programming Languages.
- Held office hour every Monday two hours for 20 students. Answered questions and helped student to debug their OCaml codes.

UI/UX Designer   June 2022 – August 2022
Boston University Forge Design Lab   *Boston, MA*

- Developed a UI/UX design and prototyping for a mobile application.
- Designed on Adobe Photoshop and Adobe Illustrator. Prototyping in Figma.

ACTIVITY

Teaching Support in Gansu, China   Summer of 2017, 2018, 2019

- Teaching primary school student back in my hometown village English and Math during summer.

- Most students were between Grade 3 to Grade 6, who needed help for their summer homeworks or wanted to preview the knowledge for next semester.

- This sadly stopped after COVID-19 hits.

PROJECTS

Ghostly | *Next.js, Firebase, Chakra UI*   November 2022

- A full stack social media application that allows users to share videos and books in their community.

- Link to codebase: https://github.com/zikunw/Ghostly

Sisyphus | *React.js, Electron.js*   October 2022

- A desktop to-do list that uses Sisyphus as a metaphor for things we need to do in life.

- Link to codebase: https://github.com/SciencePotato/sisyphus
